Rank Your Preferred Pickup Day (1 Most Preferred – 3 Least Preferred)

- Mondays
- Wednesdays
- Fridays
- No Preference

We will most likely be able to assign your most preferred day.

Check here if you wish to pay by card and we will email you a link to submit your credit card payment. Full payment when applying is required for card transactions.

Half bushel shares cost \$725 each and full bushel shares cost \$1050 each. Egg shares are 1 dozen cage free eggs per week for the season (18 weeks) and cost \$120 each. The extra fruit add on doubles the amount of the primary fruit in each week's share and costs \$90 for half shares and \$160 for full shares. These prices are for the full CSA year.

The 2025 CSA program will run for at least 16-18 weeks and will be split into three seasons: Spring distributions will begin in mid May and will run for 4-6 weeks Summer distributions will begin in early July and will run for 6, or so, weeks Fall distributions will begin in mid September and will run for 6, or so, weeks. (in 2020 we ran for 20 weeks, in 2021 we ran for 19 weeks, in 2022 we ran 20 weeks, in 2023 we ran for 20 weeks, and in 2024 we ran for 19 weeks) Egg shares will be for 16 weeks. 4 weeks in the Spring, 6 in the Summer and 6 in the Fall. We also offer an extra fruit add on. This extra fruit add on will double the amount of the primary fruit item in your weekly share. The cost for the year for this add on is \$90 for half bushel shares and \$160 for full bushel shares.

Half bushel shares work well for individuals, couples, and families with one or two small children. Full bushel shares are better suited to larger families or can be shared between two smaller families.

For the spring season shares are likely to include peas, strawberries, lettuce, greens, beets, summer squash, spring onions, lettuce, cherries, broccoli, cabbage, and cauliflower.

For the summer season we plan to have green beans, sweet corn, tomatoes, melons, peppers, summer squash, peaches, cucumbers, plums, onions, potatoes, eggplant, blueberries, okra, and blackberries.

For the fall season we typically have green beans, sweet potatoes, apples, celery, raspberries, broccoli, pears, greens, cauliflower, cabbage, turnips, pumpkins, and winter squash.

If you are on vacation, and unable to pick up your share, please make arrangements for a friend to pick it up instead. There are no refunds for shares not picked up. If shares are not picked up within 24 hours the produce will be donated to charity.

We employ many risk management techniques on our farm including irrigation and deer fencing to reduce the chance of crop loss. We will do our best and expect to provide you with the variety and quantities of produce advertised. However there remains some risk of potential crop loss. In the event of such loss, the quantity or variety of produce in your share may be different than what is advertised.

Thank you for allowing Yankey Farms to provide you with the freshest, highest quality produce available.

I have read and understand the terms listed above.
